

BERKSHIRE

PORK & HAM

The Berkshire pig is a rare breed, originating from the English county of Berkshire, recognized for their superior eating qualities, well over 300 years ago. In 1875, the American Berkshire Association was established to ensure that pedigrees were only given to pigs directly imported from established English herds, or those that could be traced directly back to such imported animals. The pure bred Berkshire breed is very popular in Japan, known as Kurobuta, which translates into "Black Pig".

Berkshire pork ranks at or near the top in just about every eating quality trait. The internal marbling is so significant that it draws comparisons to Kobe beef. This increased marbling delivers a tender, juicy, and flavorful finished product. Heritage Berkshire handles the entire process, from farm, to processing, to packaging, thus ensuring a consistent steady supply of the highest quality Berkshire Pork.
